

Our Service

About Healthcare Now

healthcare NOW

At Healthcare Now we aim to provide quality, accessible and affordable healthcare in a modern and friendly environment. Conveniently located right in the heart of Edinburgh City Centre and Dunfermline in Fife, we offer a flexible, cost-effective service to businesses which meets or exceeds that offered by larger private healthcare providers.

You can use our corporate services in two ways: either as an employee benefit (your company or organisation pays), or on an individual self-pay basis (your employee pays), when your employees can benefit from special discounts if you register with us.

To deliver services at your premises, we normally require participation from a minimum number of employees. We bring all equipment and supplies with us, however, we would also require access to a small, private room.

All our corporate programmes can be tailored to suit your needs and we would be happy to help you plan your specific healthcare requirements, or to provide advice on any health-related issues.

Based in the heart of Edinburgh's West End and Dunfermline, Healthcare Now is a private healthcare practice offering a range of fast, easy and affordable services to both individuals and businesses.

Healthcare Now can be used as a stand-alone provider, or as an addition to existing NHS provision. Self-referrals are welcome and appointments are usually available the same day.

Healthcare Now services include:

- Obstetrics Scanning (all stages of pregnancy)
- Ultrasound Scanning (including general, sports injuries and musculoskeletal scanning)
- Physiotherapy
- Health Screening and Medicals
- Women's Health Screening (including fertility assessments)
- Men's Health Screening
- Corporate and Occupational Health packages
- Consulting room hire for professional health practitioners

Corporate Healthcare Packages

- *Flexible, cost-effective healthcare for employees*
- *Available as employee self-pay or company benefits*

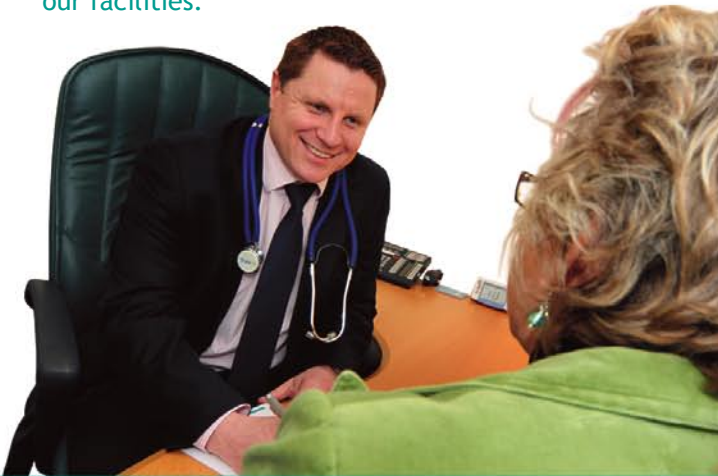

Healthcare Packages

At Healthcare Now we recognise the importance of having a healthy and productive workforce. We also know how much illness, sick leave and absenteeism can disrupt workflow and affect your bottom line.

That's why we offer a range of flexible healthcare packages for small-to-medium-sized businesses, which can be tailored to suit your specific needs and budget.

A range of health screening programmes, vaccination programmes (including flu) and Occupational Health packages can be delivered by our team of qualified practitioners, either at our modern clinics in Edinburgh's City Centre or Dunfermline in Fife, or at your premises.

You'll find it pays to invest in a healthy, happy workforce. Call us now for a no obligation chat, or make an appointment to pop in and see round our facilities.

WorkingWell Health Screening Packages

We offer five levels of health screening packages, designed to ensure that your general health is in tip-top shape, or as a way of identifying if you might be at risk of developing serious illnesses in the future.

Our **WorkingWell** packages start from £50 and take between 30 minutes and two hours. See our website for more details.

We also offer additional services which can be added to any **WorkingWell** package, including:

- Prostate Screening
- Cervical Screening
- Ovarian Screening
- Bowel Cancer Screening
- Aortic Screening
- Testicular Screening

We can tailor packages to suit your exact requirements and budget, so call us or visit our website for more details.

Vaccination Programmes

Our most popular programme for flu vaccinations takes place in October, the recommended time to ensure that the vaccine has had time to take effect before the winter sets in properly.

We can deliver vaccinations either on your premises (we require a minimum number of people to participate) or at our clinics in Edinburgh or Dunfermline. If you register with us as a business partner, your employee can simply call to make an appointment, provide proof of employment, and receive their flu vaccine at a convenient time and at a special discounted price.

We offer vaccination programmes for:

- Influenza
- Travel
- Chickenpox
- Cervical Cancer
- Hepatitis B
- Others on request

Occupational Health

At Healthcare Now we have a team of experienced GPs and Occupational Health consultants who provide a comprehensive range of OH services, all of which can be tailored to suit your individual needs. We can work with you either on a contractual or ad hoc basis, and have the flexibility to work with other occupational health services, if required.

Our services include:

- Pre-employment medical assessments
- Independent specialist medical opinions
- Health screening assessments
- Screening for drugs of abuse (via urine screening)
- Health promotion programmes, eg. influenza vaccinations
- Assessment of employees with frequent periods of short-term sick leave
- Services for managing employees on long term sick leave, including independent opinion on fitness to return to work, modifications or support required to return to work, issues around the Disability Discrimination Act and pension ill-health retirement certification
