

Our Service

At Healthcare Now we aim to provide accessible and affordable healthcare in a modern and friendly environment. All obstetric scans take place in a relaxed and informal environment, giving you time to enjoy seeing your baby on a specially positioned screen.

Our ultrasound specialists are all state registered ultrasonographers and members of the Society and College of Radiographers. They are happy to answer any questions or concerns you may have and to support you throughout your pregnancy, monitoring the growth and development of your baby as the weeks pass.

**Healthcare Now is the only registered
*Fetal Medicine Accredited unit
in Scotland.**

**The Fetal Medicine Foundation is a registered charity which promotes research and training in fetal medicine.*

About Healthcare Now

Based in the heart of Edinburgh's West End, Healthcare Now is a private healthcare practice offering a range of fast, easy and affordable services to both individuals and businesses.

Healthcare Now can be used as a stand-alone provider, or as an addition to existing NHS provision. Self-referrals are welcome and appointments are usually available the same day.

Healthcare Now services include:

- Obstetrics Scanning (all stages of pregnancy)
- Ultrasound Scanning (including general, sports injuries and musculoskeletal scanning)
- Physiotherapy
- Health Screening and Medicals
- Women's Health Screening (including fertility assessments)
- Men's Health Screening
- Corporate and Occupational Health packages
- Consulting room hire for professional health practitioners

OBSTETRIC SCANNING

- *Affordable and accessible scans for every stage of pregnancy*
- *See your baby on screen for complete reassurance*

Pregnancy is an exciting time. It can also be a time of natural anxieties.

Based in Edinburgh, Healthcare Now is a private healthcare clinic offering a full range of state-of-the-art obstetric scanning to alleviate worries and give you peace of mind - no matter what your stage of pregnancy.

From early pregnancy, to the latest 3D/4D scanning (an amazing three-dimensional picture of your baby moving in real time) our fully trained and experienced specialists work closely with the NHS providing the ideal complement to your existing obstetric care.

It's affordable, accessible and friendly. Why not speak to one of our specialist sonographers to find out more?

Which scan is right for you?

EARLY PREGNANCY SCAN (7 - 11 weeks)

This scan is helpful for confirming dates in early pregnancy.

NUCHAL TRANSLUCENCY SCAN (11 - 13⁺⁵ weeks)

This is an early screening test for Down's Syndrome which, when coupled with a blood test and the mother's age, is 85 - 90% accurate at picking up a high risk.

ANOMALY SCAN (19 - 24 weeks)

This scan provides information on your baby's growth and development and is a detailed examination of all your baby's major organs and bones.

GROWTH SCAN (24 weeks +)

This scan takes various measurements to assess your baby's growth and development.

GENDER SCAN (24 - 34 weeks)

This scan is to find out if it is a boy or a girl, and a general assessment of the baby is performed to check wellbeing.

3D/4D SCAN (26 - 32 weeks)

This is an amazing three-dimensional picture of your baby which produces life-like visualisation - in fact, you can often see your baby moving, sucking its thumb and even smiling! We can provide 2D and 3D images and a DVD recording of the scan for you to keep.

*Scans start from only £65.
Scans also now available in Fife.*
