

Our Service

At Healthcare Now we aim to provide quality, accessible and affordable healthcare in a modern and friendly environment. Conveniently located right in the heart of Edinburgh City Centre, we are open five days a week so you can make appointments at a time to suit you.

We can be your sole healthcare provider, or a complementary service to your existing NHS provider. Either way, our team of qualified health practitioners aim to give you best advice and support to ensure that your complete health needs are met.

All ultrasound scans are carried out in a relaxed and informal environment by ultrasound specialists, who are all state registered ultrasonographers and members of the Society and College of Radiographers.

Why not call us, or pop in for a chat to see what we have to offer?

Healthcare Now caters for self-pay patients, or those with health insurance.

About Healthcare Now

Based in the heart of Edinburgh's West End, Healthcare Now is a private healthcare practice offering a range of fast, easy and affordable services to both individuals and businesses.

Healthcare Now can be used as a stand-alone provider, or as an addition to existing NHS provision. Self-referrals are welcome and appointments are usually available the same day.

Healthcare Now services include:

- Obstetrics Scanning (all stages of pregnancy)
- Ultrasound Scanning (including general, sports injuries and musculoskeletal scanning)
- Physiotherapy
- Health Screening and Medicals
- Women's Health Screening (including fertility assessments)
- Men's Health Screening
- Corporate and Occupational Health packages
- Consulting room hire for professional health practitioners

ULTRASOUND SCANNING

- *A full range of general and specialist ultrasound scans*
- *Fast, effective scanning at a time to suit you*

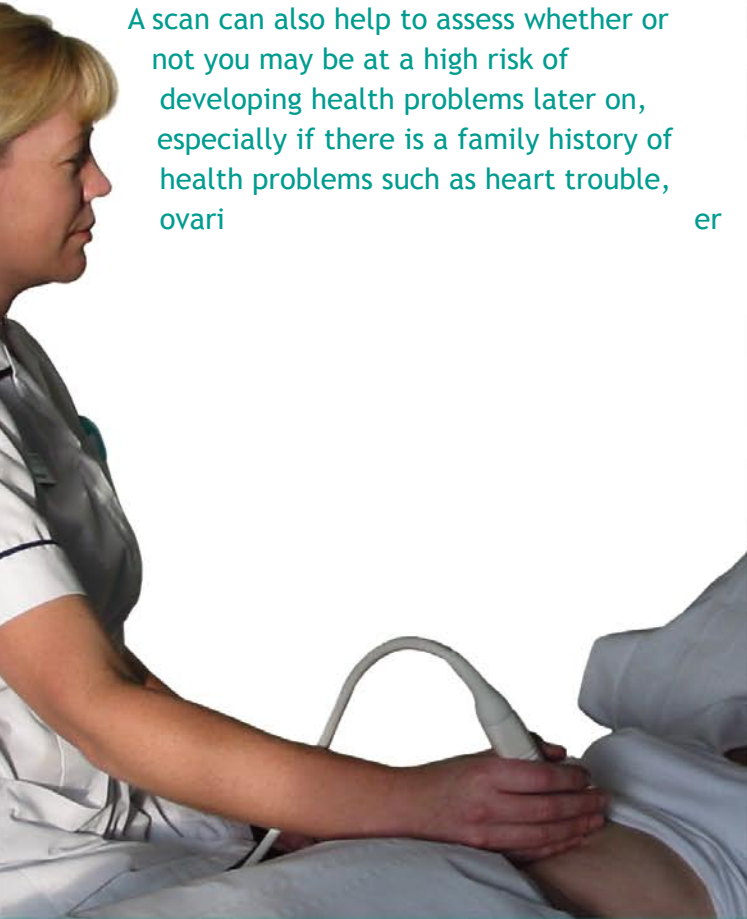

healthcare NOW

Healthcare Now offers a full range of ultrasound scans so you can benefit from faster diagnosis and treatment of health problems, without the delays caused by long waiting lists.

A scan can also help to assess whether or not you may be at a high risk of developing health problems later on, especially if there is a family history of health problems such as heart trouble, ovarian
